

QUANTUM: FROM FOUNDATIONS TO THE SECOND QUANTUM REVOLUTION

Delve deep into the world of QUANTUM and unveil some of its most astonishing features, thanks to our speakers:

S. Pascazio

“The unlikely path: how Quantum Physics came to be”

P. Facchi

“Quantum Games”

F. Pepe

“Quantum computing and simulations – Part I”

G. Magnifico

“Quantum computing and simulations - Part II”

S. Pascazio

*“Qubits, keys, and the quantum edge:
a journey into tomorrow's technology”*

M. D'Angelo

“From 3D to hyperspectral”

V. G. Lucivero

“Atomic quantum technologies”

Bari, UCI Cinemas Showille
5th October 2025, 9.30 - 13.30
Open to everyone!
